FOR IMMEDIATE RELEASE

New Superlift Select Series Coilover Shocks Raise 2004-07 F-150/Expedition 4x4s Up To 6"

West Monroe, LA – Working with Bilstein, Superlift has developed the Select Series (SS) high-performance coilover shock for current-model F-150/Expedition 4x4s. A high-pressure gas design, the Select Series shock has a monotube body that's bright zinc-plated and is backed by Superlift's Limited Lifetime Warranty.

Multiple snap-ring grooves in the Select Series shock's body allow coil-spring seats to be set for no additional lift or 2" of lift. The coilover is an excellent upgrade to any brand of aftermarket lift kit, and it contributes to a total 6" of front lift when combined with Superlift's 4.5" F.I.T. Series F-150/Expedition suspension system. (Superlift also offers an economical 2.5" lift kit for these vehicles.) Rear leveling options are Superlift 1.5" tapered blocks and a 2.5" add-a-leaf kit.

Many other suspension accessories are available for 2004-07 4x4 F-150s and Expeditions. Popular upgrades include a brushed stainless-steel skidplate (complete with laser-cut flaming Superlift logo), Torque Max Traction Bars, Rail Wraps frame dress-up panels, and the eXtreme Ring rear differential cover protector. All Superlift products are backed by a Limited Lifetime Warranty.

For more information, contact your nearest Superlift dealer, call 800-551-4955 to speak with Superlift's sales and tech support staff or visit www.superlift.com: Superlift Suspension Systems, 300 Huey Lenard Loop, West Monroe, LA 71292, 800-551-4955 toll-free, 318-397-3040 fax, www.superlift.com.

###

Formed in 1975, Superlift Suspension Systems is a pioneer in the off-road industry. Today, Superlift is one of the largest suspension companies in the off-road market and is one of the few suspension companies owned and operated by actual four-wheel-drive enthusiasts. Superlift's company philosophy and quality product line reflect the passion of its employees and management for four-wheel-drive vehicles of all sizes and years.
